De deken wordt gehaakt met de "corner to corner" methode ("C2C"). Het patroon bestaat uit een diagram en een beschrijving van elke toer, zodat je goed kunt bepalen hoeveel pixels je moet haken voor elke kleur. De pijlen in het patroon wijzen welke kant je op haakt. Begin in de rechterhoek onderaan.

Een goede tip is om onderwijl de draadjes af te hechten, zodat je geen 'miljoen' draadjes hebt, die op het laatst nog afgehecht moeten worden.

Als je vindt, dat het bezwaarlijk is om te werken met veel verschillende bollen, kan je werken met garen op knijpers, zodat je garen dat je niet gebruikt, makkelijk vast kunt klemmen, en ze daarom minder in de knoop zullen raken.

Corner to corner

Toer 1

1. Start met 5 lossen.

2. In de 3e losse haak je 1 Stk.

3. Haak Stk in de volgende 2 L.
Nu heb je de eerste pixel gehaakt.

Toer 2

1. Haak 5 lossen.

2. Haak 1 Stk in de 3e L vanaf de naald.

3. Haak Stk in de volgende 2 L.
Nu heb je weer een pixel.

4. Nu moet de pixel worden samen gehaakt met de eerste pixel. Dit doe je door de pixel te keren en haak een Hv in de linkerzijde van de eerste pixel. Zie foto.

5. Haak 2 L (Vervangen het 1e Stk)

6. Haak 3 Stk in de L-boog, waar je net 1 Hv heb gehaakt. Nu zijn er 2 pixels in toer 2.

Toer 3

1. Haak 5 L.

2. Haak Stk in 3e L vanaf naald en hierna 1 Stk in de laatste 2 L.

3. Haak 1 Hv in de pixel eronder.

4. Haak 2 L en haak 3 Stk in de L-boog waar je net 1 Hv in heb gehaakt.

5. Haak 1 Hv in de pixel ernaast. Haak 2 L.
Haak 3 Stk in de L-boog, waar je net 1 Hv in heb
gehaakt. Nu heb je 3 pixels en toer 3 is klaar.

Minderen voor de hoek

1. In plaats van 5 L te haken aan het eind van de toer worden 3 Hv aan de zijkant van de laatste pixel gehaakt.

2. Ga verder met het haken van pixels zoals voor de mindering.

3. Hier kun je zien, hoe je mindert als er geminderd moet worden aan het einde van de toer, door 2 pixels te haken samen met 1 Hv.
